A QUARTERLY NEWSLETTER OF HCS GROUP, PC 2017, ISSUE 3

A Word from Leadership:

HCS Group had a great Government FY17 completion cycle meeting all deadline requirements, within budget, so that all projects were awarded by 01 OCT 2017. Thanks to our great staff and pool of consultants that work together to make this process a success. Our Feature Project below is one of those projects to be constructed in 2018.

We begin our FY18 programming and business plan that includes work in Africa, Puerto Rico, Honduras, Guatemala, and Peru. At home we will be working in AL, CA, FL, LA, MA, TX, VA, and WA State. All the above is just what we have been awarded to date and we have more to come!

Thanks to all our team members, family, clients, and friends for all you do.

Kent

FEATURE PROJECT

New Base Chapel

IMCOM Soto Cano Air Base, Honduras

HCS was selected as the Prime A/E for the new Chapel at Soto Cano Air Base, Honduras. The facility will be the focal point of the base, being the most progressive in appearance to all facilities on this semi-permanent base installation.

The IMCOM Chapel at Soto Cano Air Base will provide a multi-denominational worship center that includes seating for 75 persons with overflow capability for 100 persons, and a multiuse fellowship hall with the flexibility to accommodate banquets and entertainment functions. Public support areas include flexible multipurpose rooms for classroom and small group worship functions, a confessional, an ablution room, and kitchen/pantry. Administrative areas include a chaplain's suite with reception and two offices, a conference room, an office for two chaplain assistants, a sacristy, office supply storage and a depository for donations. State of the art LED direct and indirect lighting systems and controls are utilized to enhance the worship experience.

HCS Group's Mission and Goal:

Leadership – “Our Team’s Greatest Asset”

Integrity – “Our Teams Greatest Responsibility”

Service - “Our Team’s Greatest Privilege”

A QUARTERLY NEWSLETTER OF HCS GROUP, PC 2017, ISSUE 3

Around the office...

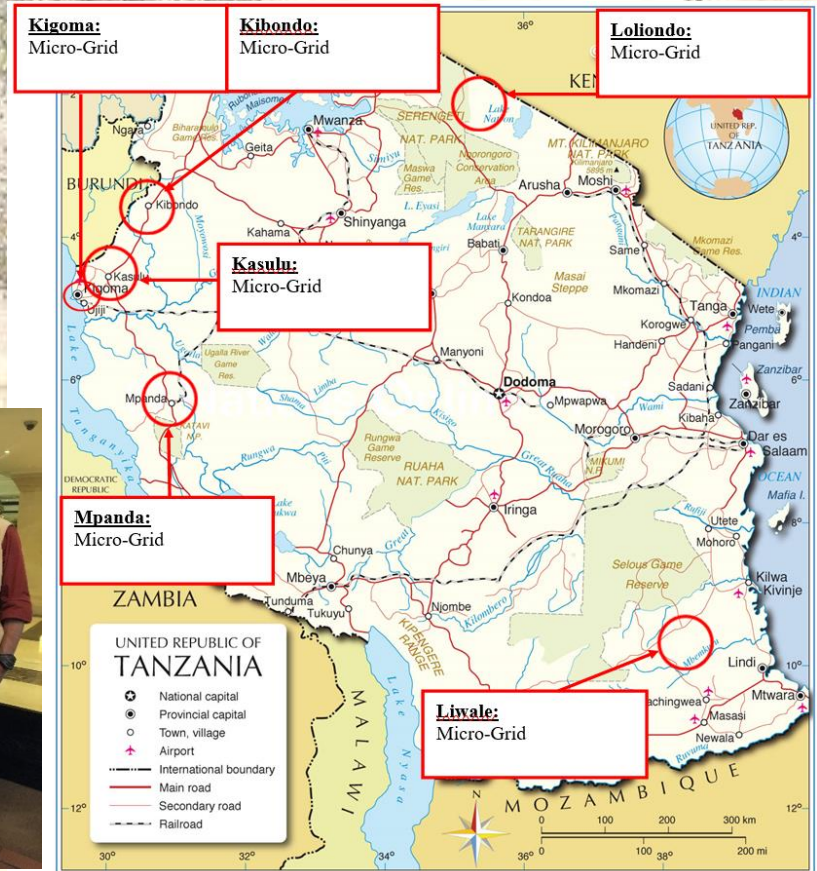

HCS Group has spent the last few months getting ready for our USAID Power Africa Program projects. We have been busy preparing for the trip and travel is now underway. This first leg of our journey is to study the micro-grid sites in Tanzania. We will highlight other countries and sites as we progress, so watch for coming issues of our Newsletter.

We arrived in Dar es Salaam, Tanzania with a great welcome and preparing to travel to the interior to the remote sites within the country and assist in providing solutions to micro-grid resiliency and reliability for those in need of what we all take for granted.

A lot of preparation goes into a trip such as this; as your movement around the country time in travel via flights, road, etc. are more time consuming than the actual work itself at each site.

The HCS Group Team is well seasoned travelers and the entire office pitches in to assist in the preparations.

Kent and Tom are looking forward to the adventure and already made one friend.....

News
